v4 — Leak Rate Analysis Dashboard

Base URL: `https://gbogeb.github.io/cryo_leak_rate_dashboard/`
Repo: `GB0GEB/cryo_leak_rate_dashboard` ( not yet created on GitHub)
Source: `/docs/` folder
Status:  Pending GitHub repo creation + push

Entry Points

Priority	URL Path	Description
	<code>/</code>	Landing page (<code>index.html</code>)
	<code>/VERSION_SELECTOR.html</code>	Version selector — v3/v4 cards
	<code>/NAVIGATOR.html</code>	Main card-based entry point
	<code>/index_v4_0.html</code>	42-slide technical navigator
	<code>/STAKEHOLDER_PRESENTATION.html</code>	10-slide executive deck

Triage Pages

URL Path	Description
<code>/dashboard.html</code>	Triage dashboard — engineer view
<code>/executive_summary.html</code>	Executive triage summary
<code>/calculations.html</code>	Detailed calculation pages
<code>/rtm_traceability.html</code>	Requirements traceability matrix
<code>/handover.html</code>	Formal handover document
<code>/trriage_compliance.html</code>	Standards compliance grid

Visualizations (27)

URL Path	Description
/visualizations/ chart01_leak_vs_loss_material_overlay.html	Leak vs loss with material overlay
/visualizations/ chart02_temperature_sensitivity_pressure_is olines.html	Temperature sensitivity
/visualizations/ chart03_pressure_sensitivity_temperature_is olines.html	Pressure sensitivity
/visualizations/ chart04_valve_size_impact.html	Valve size impact
/visualizations/ chart05_seal_material_comparison.html	Seal material comparison
/visualizations/ chart06_supplier_performance_matrix.html	Supplier performance
/visualizations/ chart07_material_cost_breakdown.html	Material cost breakdown
/visualizations/ chart08_radiation_tolerance_curves.html	Radiation tolerance
/visualizations/ chart09_welding_cost_by_size.html	Welding cost
/visualizations/ chart10_warm_service_analysis.html	Warm service analysis
/visualizations/ chart11_cold_service_analysis.html	Cold service analysis
