Actions	https://github.com/GBOGEB/cryo_leak_rate_dashboard/actions
Latest Release	https://github.com/GBOGEB/cryo_leak_rate_dashboard/releases/latest
Pages Deployment	Check Actions → “Deploy to GitHub Pages”

Quick Commands

```
# Full build
./build.sh

# Quick validation
./validate.sh --quick

# Run tests
pytest tests/ -v

# Check links
python scripts/validate_links.py --report

# Compute hashes
python scripts/compute_hashes.py docs/ > dist/hashes.json

# Create release
./scripts/release.sh v4.1.0

# One-command deploy
./scripts/deploy.sh
```
